

Emily Costa

eac33@students.calvin.edu | emily-costa.com | github.com/emily-costa | (412)-403-4445

Looking to obtain a professional position that will allow me to utilize and broaden my relevant experience, technical skills, and problem-solving skills. My technical interests include software development and UI/UX design.

Education

Calvin University | Bachelor of Computer Science, December 2021

Transfer from University of Central Florida, January 2020
Dean's List, 3.5 GPA

Selected Coursework: Data Structures & Algorithms | Software Engineering | Web Development | Object Oriented Programming | Operating Systems | Computer Security | Programming Language Concepts

Skills

Coding: C, Python, Java, C#, HTML, CSS, JavaScript, TypeScript

Frameworks/Environment: Angular, React Native, Ionic, Linux/Unix, Agile Scrum, Github

Projects

Mercury | UI Designer and Developer

Fall 2020

Mobile application streamlines package delivery for Calvin University's residence halls by aiding in logging packages and sending automated email notifications. Built using React Native and Heroku.

Women in Computing Website | Designer and Developer

December 2020

Web application provides a central location where users can learn about the Women in Computing club, meet the leadership, view upcoming events, ask a question, and sign up. Built using Angular and EmailJS.

Work & Leadership Experience

Vice President | Women in Computing Club

August 2020 – Present

- Organize and facilitate the mentorship program by networking with women working in STEM and connecting them with female students who share similar interests
- Manage all social media accounts to promote events and communication amongst members
- Maintain the club's website and webserver

Office Assistant | Calvin University Development Office

August 2020 – Present

- Communicate with faculty, students, and guests with great customer service

Campus Leader | ONE Campaign for Michigan

August 2020 – November 2020

- Organized on-campus events to help promote youth voter turnout in the 2020 general election
- Phone and text banking

Grader | Calvin University Statistics Department

January 2020 – May 2020

- Graded homework, projects, and exams promptly with detailed feedback
- Answered questions about expectations or how to complete an assignment
